

RN to BSN STUDENT LEARNING OUTCOMES

PROGRAM GOALS

Graduates of the program will pursue a path of life-long learning that incorporates evidence-based practices, quality improvement initiatives, and the integration of advance technology.

Graduates of the program will exhibit professionalism through delivery of patient-centered and culturally-appropriate care to individuals, families, groups, communities, and populations.

Graduates of the program will assume leadership roles in workplace and community settings

PROGRAM OBJECTIVES

Graduates of the Bachelor of Science in Nursing (BSN) program are prepared to:

Provide patient-centered and culturally appropriate care to individuals, families and communities, with an emphasis on wellness, as part of an interdisciplinary team.

Assume management/leadership roles in their chosen work settings and communities.

Incorporate evidence-based findings into their care and management practices.

Role model ethical thinking and behavior, both in and out of the workplace.

Participate in workplace and/or community quality improvement initiatives.

Communicate effectively, using all available technology.

Advocate for policy changes in the workplace, community, state, and country that will address inadequacies and inequalities in health care delivery.

Develop therapeutic relationships with clients and families to effect desired health outcomes.

Demonstrate lifelong learning as evidenced by continuing education and maintenance of competency.

LEARNING OUTCOMES

Graduates of the Bachelor of Science in Nursing program will:

Be prepared to deliver effective culturally competent and interdisciplinary care within the community, with an emphasis on wellness and therapeutic relationships.

Demonstrate commitment to excellence in nursing practice, workplace and community improvement with education and lifelong learning.

Role model and promote excellence and ethical practice within nursing while assuming management/leadership roles.

Incorporate evidence-based findings into advocacy and clinical practice within the workplace and community.
